

CUMULATIVE SUBJECT INDEX

VOLUME 17

* Indicates original article

ACTINOMYCOSIS

- actinomycosis of the brain, report of a successfully treated case, 230

ADOLESCENTS

- adolescent in the psychiatric hospital, 447

ADRENAL GLANDS

cortex:

- adrenocortical function in schizophrenia, 441

ADRENOCROME

- adrenochrome as the cause of schizophrenia, investigation of some deductions from this hypothesis, 94

AGED—See Old Age.

ALCOHOL

- electroencephalographic changes in man correlated with blood alcohol concentration and some other conditions following standardized ingestion of alcohol, 338
- influence of chlorpromazine and alcohol on cerebral hemodynamics and metabolism, 209

ALCOHOLISM

- alcoholism as a medical problem, 207
- current attitudes to alcoholism of psychiatrists in Southern California, 207
- presenile cerebellar ataxia in chronic alcoholics, 464
- sexual adjustment of alcoholics, 208
- what causes alcoholism, 202*

treatment:

- alcoholism, theory, problem and challenge, the treatment of alcoholism, 439
- Miltown as a tranquilizer in the treatment of alcohol addicts, 439

ALZHEIMER'S DISEASE

- differential diagnosis of Pick's disease and Alzheimer's disease on the basis of 12 cases studied clinically and anatomically, 341
- senescence, senility and Alzheimer's disease, 463

AMINO ACIDS

- study of free amino acids in the human cerebrospinal fluid, 108

AMYLOID DISEASE

- amyloid polyneuropathy, 228

AMYOTROPHIC LATERAL SCLEROSIS

- epidemiological investigations of amyotrophic lateral sclerosis; familial aggregations indicative of dominant inheritance, 109

ANNOUNCEMENTS

- Ars Medica exhibit at The New York Academy of Medicine, 359
- Bio-Science Information Exchange, 115
- MD Publications technical display at A.M.A. meeting, 192
- psychiatry meeting in Buenos Aires, 179

ANOREXIA NERVOSA

- anorexia nervosa, 314

ANTIBODIES

antibrain:

- antibrain antibodies in multiple sclerosis, 109

ANTICONVULSANTS

- methods of evaluation of new anticonvulsant compounds, 468

ANXIETY

- anxiety states in the Army associated with overactivity of the thyroid, 283*
- consequences of anxiety, the emotions and the heart, 448
- differentiation between anxiety and depression by the photically activated electroencephalogram, 111
- ictal depression and anxiety in temporal lobe disorders, 462
- sedation threshold, manifest anxiety, and some of aspects ego function, 315

neurotic:

- some comments on the nature, diagnosis and prognosis of neurotic anxiety, 450

separation:

- psychotherapy of a mother and daughter with separation anxiety, 103

ARMY—See Military Medicine.

ARTERIOSCLEROSIS

cerebral:

- cerebral arteriosclerosis, anatomico-clinical and statistical study, 457

ATAXIA

cerebellar:

- presenile cerebellar ataxia in chronic alcoholics, 464

AZACYCLONOL

- use of azacyclonol and pipradol in general practice, 320

BABINSKI RESPONSE

- Babinski response, a review and new observations, 331

BELL'S PALSY

- diagnosis and treatment of idiopathic facial paralysis (Bell's palsy), 106

BOOK REVIEWS

- Administrative medicine—Transactions of the Third Conference, 1954, 231
- Counseling psychiatry, 344
- Crime, courts, and probation, 471
- Group therapy for mothers of disturbed children, 470
- Handbook (A) of hospital psychiatry, a practical guide to therapy, 234
- Management of addictions, 232
- Medical research: A midcentury survey, volumes 1 and 2, 342
- Mr. Seward for the defense, 469
- Neurology and psychiatry in childhood, 471
- Neuropharmacology—Transactions of the First Conference, 233
- Physician (The) and the law, 232
- Police drugs, 471

- Present status (The) of the problems of release of patients from mental hospitals, 115
 - Psychology (The) of personality, 343
 - Psychosomatic genesis (The) of coronary artery disease, 470
 - Relationship (The) between syringomyelia and neoplasm, 472
 - Taboo, 472
 - Textbook of occupational therapy, 115
 - Understanding human behavior, 469
- BRAIN**
- cerebral alterations in old age, 467
 - influence of chlorpromazine and alcohol on cerebral hemodynamics and metabolism, 209
 - arteriosclerosis:*
 - cerebral arteriosclerosis, anatomico-clinical and statistical study, 457
 - atrophy:*
 - electroencephalogram in cerebral atrophy, 229
 - diseases:*
 - actinomycosis of the brain, report of a successfully treated case, 230
 - injuries:*
 - changes in a circumscribed area in the electroencephalogram after slight head injury in children 338
 - figure-ground syndrome in the brain-injured child, 322
 - surgery:*
 - examination of the sensory system in patients after hemispherectomy, 107
 - psychologic changes in man after chlorpromazine and certain types of brain surgery, 170*
 - tumors:*
 - intracranial neoplasms masked as depressions and diagnosed with the aid of electroencephalography, 340
 - intracranial neoplasms in psychotic patients, survey of 2,430 consecutive complete autopsies performed by the Boston State Hospital during the period 1930–1950, 231
 - multiple intracranial expanding lesions of diverse origin, 113
- BRAINWASHING**
- brainwashing as a factor in psychiatric illness, 209
- CAPILLARIES**
- capillary system in patients with psychiatric disorders, 208
- CARBON DIOXIDE**
- evaluation of carbon dioxide therapy, 104
- CATARACT**
- electroencephalographic and neuropsychiatric observations in patients with senile cataract, 337
- CEREBRAL PALSY**
- electroencephalogram in infantile cerebral palsy, 339
 - treatment:*
 - role of non-directive play therapy as a technic of psychotherapy in cerebral palsy, 330
- CEREBROSPINAL FLUID**
- blood-cerebrospinal fluid barrier in tuberculous meningitis and allied conditions, 224
 - effect of urea on cerebrospinal fluid pressure in human subjects, preliminary report, 332
 - study of free amino acids in the human cerebrospinal fluid, 108
- CHEMOTHERAPY**
- challenge of bio- and chemotherapy in psychiatry, 15*
- CHILDREN**
- efficacy of chlorpromazine in hyperactive mentally retarded children, 102
 - infantile spastic hemiplegia, 106
 - brain injuries—See Brain, injuries.*
 - developmental disorders:*
 - introduction to the symposium on developmental disorders in children, their mechanism and management, 319
 - mental deficiency—See Mental Deficiency.*
 - psychoses in:*
 - some considerations on the use of chlorpromazine in a child psychiatry clinic, 164*
- CHINA**
- psychiatric thought in Chinese medicine, 215
- CHLORPROMAZINE**
- alteration of copper metabolism in chlorpromazine-treated cases, 452
 - “ambulatory” treatment with chlorpromazine, 57*
 - chlorpromazine and human spasticity, an electromyographic study, 466
 - chlorpromazine in the management of the institutionalized aged psychiatric patients with chronic brain syndrome, 317
 - chlorpromazine and neuroleptic treatments in psychiatry, 19*
 - comparison of chlorpromazine and reserpine in chronic psychosis, 325
 - controlled study of chlorpromazine therapy in chronic psychotic patients, 81*
 - efficacy of chlorpromazine in hyperactive mentally retarded children, 102
 - influence of chlorpromazine and alcohol on cerebral hemodynamics and metabolism, 209
 - neurophysiologic activity of chlorpromazine in clinical use, 129*
 - pharmacodynamic basis for the use of chlorpromazine in psychiatry, 25*
 - psychologic changes in man after chlorpromazine and certain types of brain surgery, 170*
 - 17-hydrocorticosteroid levels in the peripheral blood of psychotic patients under treatment with chlorpromazine and reserpine, a preliminary study, 142*
 - some interesting pharmacodynamic properties of chlorpromazine, 147*
 - spectacular therapeutic results with chlorpromazine in severe psychoses with a special dose schedule without other drugs, 220

—treatment of mental disorders with chlorpromazine, 38*

in children:

—some considerations on the use of chlorpromazine in a child psychiatry clinic, 164*

in psychiatric hospitals:

- chlorpromazine treatment of hospitalized psychotic patients, 45*
- clinical research on chlorpromazine and reserpine in state and private psychiatric hospitals, a comparative review of the clinical problems, 180*
- has chlorpromazine inaugurated a new era in mental hospitals? 197*

reactions to:

- fatal hyperpyrexia during chlorpromazine therapy, 189*
- incidents and accidents in chlorpromazine therapy, 70*
- undesirable effects and clinical toxicity of chlorpromazine, 153*

CHLORPROMAZINE INTERNATIONAL SYMPOSIUM, 15*-76,* 129*-201*

CHOLDEN, LOUIS, M.D.

—in memoriam, 386

COLLAGEN DISEASES

—neurologic manifestations in collagen diseases, 223

CONSENT

—explanation and consent in medical, particularly psychiatric treatment, 311

COPPER

—alteration of copper metabolism in chlorpromazine-treated cases, 452

CORTICOIDS—See also Hydrocorticosteroids.

—plasma corticoids in psychiatric illness, 263*

CO TUI

—Dr. Co Tui invited by President of Philippines to conduct medical survey, 375

DELIRIUM

—thinking disturbances in delirium, 323

DEMENTIA

epileptic:

—acute epileptic dementia, 463

presenile:

—presenile dementia of the Jakob type, 336

DEPRESSION

- differentiation between anxiety and depression by the photically activated electroencephalogram, 111
- ictal depression and anxiety in temporal lobe disorders, 462
- psychology of depression and its management, 442

DIAGNOSIS

psychological:

—reliability of psychiatry and the validity of psychological diagnoses, 443

DISABILITIES

—relaxant effect of meprobamate in disabilities resulting from musculoskeletal and central nervous system disorders, clinical observation of fifty-five cases, 458

DRUGS—See also Hypnotics; Sedatives.

—studies in pharmacological psychotherapy, 324

psychologic:

—relationships between chemical structure and psychoses with the use of psychotoxic substances, "comparative pharmacopsychiatric analysis," a new research method, 429*

reactions to:

—response of normal men to lysergic acid derivatives (di- and mono-ethylamides), correlation of personality and drug reactions, 414*

EGO

—sedation threshold, manifest anxiety, and some aspects of ego function, 315

ELECTROENCEPHALOGRAPHY

- behavior of epileptic and nonepileptic patients with "temporal spikes," 333
- changes in a circumscribed area in the electroencephalography after slight head injury in children, 338
- changing status of electroencephalography in neurologic practice, 466
- differentiation between anxiety and depression by the photically activated electroencephalogram, 111
- electroencephalogram in cerebral atrophy, 229
- electroencephalogram in infantile cerebral palsy, 339
- electroencephalograms of aged patients with cardiac and cerebral vascular disease, 110
- electroencephalographic changes in man correlated with blood alcohol concentration and some other conditions following standardized ingestion of alcohol, 338
- electroencephalographic and neuropsychiatric observations in patients with senile cataract, 337
- incidence of seizures, with EEG findings, in prefrontal lobotomy, 229
- intracranial neoplasms masked as depressions and diagnosed with the aid of electroencephalography, 340

ELECTROGRAPHY

intracerebral:

—clinical results of selective leukotomy based on intracerebral electrography, 328

ELECTROMYOGRAPHY

—chlorpromazine and human spasticity, an electromyographic study, 466

ELECTROSHOCK

—technique for the modification of electroshock with succinylcholine, 327

EMOTIONS

- consequences of anxiety, the emotions and the heart, 448
- occupational stress and emotional illness, 448

ENDOCRINOLOGY—See also Neuroendocrinology.

—endocrine concomitants of certain physical psychiatric treatments, 254*

EPILEPSY

- acute epileptic dementia, 463
- behavior of epileptic and nonepileptic patients with "temporal spikes," 333
- Mongolism and convulsive seizures, 334
- focal:*
 - interseizure disturbances in focal epilepsy, 462
- myoclonic:*
 - progressive familial myoclonic epilepsy in three families, its clinical features and pathological basis, 226
- petit mal:*
 - treatment of petit mal epilepsy, 334
- temporal lobe:*
 - mescaline and LSD-25 in activation of temporal lobe epilepsy, 461
- treatment:*
 - methods of evaluation of new anticonvulsant compounds, 468
 - Peganone, a new antiepileptic drug, 468
 - use of meprobamate (Miltown) in convulsive and related disorders, 469
- vestibular:*
 - vestibular epilepsy, 460

ETHYLAMIDES

- response of normal men to lysergic acid derivatives (di- and mono-ethylamides), correlation of personality and drug reactions, 414*

FACE

paralysis—See Bell's Palsy.

spasms:

- electrophysiologic and clinical observations in hemifacial spasms, 459

FIBRINOGEN

- variations in the plasma fibrinogen during the course of disseminated sclerosis, 227

FIGURE-GROUND SYNDROME

- figure-ground syndrome in the brain-injured child, 322

FORAMEN OF MAGENDIE

- congenital hydrocephalus due to atresia of the foramen of Magendie, 113

FREUD, SIGMUND

- quest for Freud, 117*

GERIATRICS—See Old Age.

GLOBUS PALLIDUS

- procaine oil blocking of the globus pallidus, 341

GOD

- current psychoanalytic concept of God, 322

HALLUCINOGENS

- experimental psychiatry, hallucinogens, tools in experimental psychiatry, 219

HEAD

injuries—See Brain, injuries.

HEART

- consequences of anxiety, the emotions and the heart, 448

HEMIPLEGIA

- infantile spastic hemiplegia, 106

HEMISPHERECTOMY—See Brain, surgery.

HERPES ZOSTER

complications:

- chronic postherpetic neuralgia, 465

thoracic:

- obstinate hiccup as a prodromal symptom in thoracic herpes zoster, 465

HICCUPS

- obstinate hiccup as a prodromal symptom in thoracic herpes zoster, 465

HISTAMINE

- psychiatric implications of sex differences in thyroid-histamine interrelationship, a clinical and laboratory study, 297*

HOLLAND, ALBERT H., JR.

- Dr. Albert H. Holland, Jr., appointed clinical consulting editor of *Antibiotic Medicine & Clinical Therapy*, 193*

HOSPITALS

psychiatric:

- adolescent in the psychiatric hospital, 447
- an approach to the treatment of massive mental hospital populations, 219
- chlorpromazine treatment of hospitalized psychotic patients, 45*
- clinical research on chlorpromazine and reserpine in state and private psychiatric hospitals, a comparative review of the clinical problems, 180*
- experiments with music in a mental hospital, 450
- has chlorpromazine inaugurated a new era in mental hospitals? 197*
- how important is psychotherapy to the hospitalized psychiatric patient? 221
- nursing in psychiatric hospitals, 321
- psychobiologic advances and the management of hospitalized patients, 378*

HYDROCEPHALUS

- congenital hydrocephalus due to atresia of the foramen of Magendie, 113

HYDROCORTICOSTEROIDS

- 17-hydrocorticosteroid levels in the peripheral blood of psychotic patients under treatment with chlorpromazine and reserpine, a preliminary study, 142*
- 17-hydrocorticosteroid levels in the peripheral blood of schizophrenic patients, a preliminary study, 276*

HYPNOTICS

- use and abuse of sedatives and hypnotic drugs, 451

IMAGERY

- hypnagogic imagery and mescaline, 440

INDUSTRIAL MEDICINE

- occupational stress and emotional illness, 448
- pathological changes in the nervous system from occupational causes, 112

INSULIN

- evaluation of subcoma insulin therapy, 105

ISOLATION

sensory:

- effects of partial perceptual isolation in mentally disturbed individuals, 444

DE JONG, H. HOLLAND, M.D.

- in memoriam, 385*

JUNG, CARL GUSTAV

- Carl Gustav Jung on "The Mind of Man," 404

LAW

- some observations on the relationship between psychiatry and the law, 437

LEUKOTOMY

- clinical results of selective leukotomy based on intracerebral electrography, 328
- evaluative studies of one hundred trans-orbital leucotomies, 454

LOBOTOMY

prefrontal:

- incidence of seizures with EEG findings, in prefrontal lobotomy, 229

LSD 25—See *Lysergic Acid Diethylamide*.

LYSERGIC ACID

- response of normal men to lysergic acid derivatives (di- and mono-ethylamides), correlation of personality and drug reactions, 414*

LYSERGIC ACID DIETHYLAMIDE

- intoxicant drugs (mescaline and lysergic acid diethylamide) in psychotherapy, 101
- mescaline and LSD-25 in activation of temporal lobe epilepsy, 461

MANIA

cyclothymic:

- symptom-picture of cyclothymic mania in different age groups, 441

MARTI-IBÁÑEZ, FELIX

- Dr. Félix Martí-Ibáñez appointed Professor of History and director of new department by New York Medical College, 128*

- Félix Martí-Ibáñez, M. D., International Editor, honored, 413

MEDICAL JURISPRUDENCE

- doctor in court, 93

MENINGIOMAS

- hereditary combined neurinomas and meningiomas, 223

MENINGITIS

tuberculous:

- blood-cerebrospinal fluid barrier in tuberculous meningitis and allied conditions, 224

MENTAL DEFICIENCY

- psychochemotherapy of mental deficiency in children, 319

MENTAL HEALTH

- community stake in the mental health program, 321

MENTAL HOSPITALS—See *Hospitals, psychiatric*.

MENTAL TESTS

- distribution according to age of a psychologic measure dependent upon organic brain function, 323

- scientific status of mental measurement, 216

MEPROBAMATE—See also *Miltown*.

- relaxant effects of meprobamate in disabilities resulting from musculoskeletal and central nervous system disorders, clinical observation of fifty-five cases, 458

- use of meprobamate (Miltown) in convulsive and related disorders, 469

MESCALINE

- hypnagogic imagery and the use of mescaline, 440

- intoxicant drugs (mescaline and lysergic acid diethylamide) in psychotherapy, 101

- mescaline and LSD-25 in activation of temporal lobe epilepsy, 461

MESTINON

- treatment of myasthenia gravis with Mestinon bromide, 336

METHYL PHENYLPIPERIDYLACETATE

- improving senile behavior with reserpine and Ritulin, new approach with use of methyl phenylpiperidylacetate, 446

METRAZOL

- oral metrazol in senility, a preliminary report, 97

MILITARY MEDICINE

- anxiety states in the Army associated with overactivity of the thyroid, 283*

MILTOWN

- clinical study of Miltown, a new tranquilizing agent, 7*

- Miltown as a tranquilizer in the treatment of alcohol addicts, 439

MINISTERS

- psychotherapy and the ministry, 453

MONGOLISM

- Mongolism and convulsive seizures, 334

MONIZ, EGAS

- in memoriam, 77*

MULTIPLE SCLEROSIS

- antibrain antibodies in multiple sclerosis, 109

- intellectual and affective functions in multiple sclerosis, 228

- multiple sclerosis and the local weather, 464

- new scale for evaluating disability in multiple sclerosis, 335

- variations in the plasma fibrinogen during the course of disseminated sclerosis, 227

treatment:

- long range treatment of multiple sclerosis with Pancorphen, 230

MUSCLES—See *Myopathies*.

MUSIC

- experiments with music in a mental hospital, 450

MYASTHENIA GRAVIS

- fatalities in myasthenia gravis, a review of 39 cases with 26 autopsies, 456
- myasthenia gravis, a personal study of 60 cases, 457
- prostigmine-responsiveness and the diagnosis of myasthenia gravis, 224
- psychological problems of patients with myasthenia gravis, 330
- studies in myasthenia gravis, a rapid diagnostic test, 335

treatment:

- treatment of myasthenia gravis with Mestinon bromide, 336
- WIN 8077 in treatment of myasthenia gravis, 114

MYOPATHIES

- myopathies and functional disturbances in muscles, 108

MYSURAN—See WIN 8077.

NARCOLEPSY

- comments and observations on the nature of narcolepsy, 460

NARCOTICS

addicts:

- acceptability for psychotherapy in institutionalized narcotic addicts, 93

NEURALGIA—See also *Trigeminal Neuralgia*.

postherpetic:

- chronic postherpetic neuralgia, 465

NEURASTHENIA

- the neurasthenic psychopath, 211

NEURINOMAS

- hereditary combined neurinomas and meningiomas, 223

NEUROENDOCRINOLOGY

- on neuroendocrinologic research in psychiatry during the Kraepelin-Freud centennial year, 235*
- some recent developments in psychoneuroendocrinology, 238*

NEUROENDOCRINOLOGY SYMPOSIUM, 235*-307*

NEUROLEPTIC TREATMENTS

- chlorpromazine and neuroleptic treatments in psychiatry, 19*

NEUROLOGY

- neurologic techniques and Rorschach test in detecting pathology of the brain, 217

OCCUPATIONAL THERAPY

- occupational treatment of chronic psychotics, 101

OLD AGE

- attitude therapy in geriatric ward psychiatry, 98
- cerebral alterations in old age, 467
- chlorpromazine in the management of the institutionalized aged psychiatric patient with chronic brain syndrome, 317
- electroencephalograms of aged patients with cardiac and cerebral vascular disease, 110

- improved senile behavior with reserpine and Ritalin, new approach with use of methyl phenylpiperidylacetate, 446
- oral metrazol therapy in senility, a preliminary report, 97
- orientation in geriatric psychiatry, 211
- prognosis in psychiatric disorders of the elderly, an attempt to define indicators of early death and early recovery, 445
- psychiatry study of attempted suicide in persons over sixty years of age, 316
- senescence, senility and Alzheimer's disease, 463
- sleep and sleep disturbances in geriatric psychiatry, 317
- treatment of the nonhospitalized emotionally disturbed elderly person, 447

PAIN

- is pain due to pressure on nerves? 331

PANCORPHEN

- long range treatment of multiple sclerosis with Pancorphen, 230

PARAPLEGIA

spastic:

- hereditary (familial) spastic paraplegia, 329

PEGANONE

- Peganone, a new antiepileptic drug, 468

PERSONALITY

- response of normal men to lysergic acid derivatives (di- and mono-ethylamides) correlation of personality and drug reactions, 414*

PHARMACODYNAMICS

- experimental pharmacodynamics and psychobiology, 376*

PHARMACO-PSYCHIATRY

- recent advances in "pharmacopsychiatry," 381*

PHILIPPINES

- Dr. Co Tui invited by President of Philippines to conduct medical survey, 375

PHYSICIANS

- doctor in court, 93
- general practitioner and the discharged mental patient, 213

PICK'S DISEASE

- differential diagnosis of Pick's disease and Alzheimer's disease on the basis of 12 cases studied clinically and anatomically, 341

PIPRADOL

- use of azacyclonol and pipradol in general practice, 320

PLAY THERAPY

- role of non-directive play therapy as a technic of psychotherapy in cerebral palsy, 330

POLIOMYELITIS

- psychological implications of breathing difficulties in poliomyelitis, 99

PREMATURITY

- neuropsychiatric sequelae of prematurity, a longitudinal study, 442

PROCAINE

- procaine oil blocking of the globus pallidus, 341

PROJECTION

- demarkation of the concept of projection, 324

PROSTIGMINE

- prostigmine-responsiveness and the diagnosis of myasthenia gravis, 224

PSYCHIATRY

- challenge of bio- and chemotherapy in psychiatry, 15*
- conceptual scheme for psychiatric syndromes, 97
- domiciliary consultation in psychiatric practice, analysis of 1000 visits, 443
- explanation and consent in medical, particularly psychiatric treatment, 311
- great physiodynamic therapies in psychiatry, 1*
- ability of psychiatry and the validity of psychological diagnoses, 443
- some observations on the relationship between psychiatry and the law, 437
- biologic—See Psychobiology.*
- experimental:*
 - experimental psychiatry, hallucinogens, tools in experimental psychiatry, 219
 - historical and personal approach to the development of experimental psychiatry, 388*
- in China:*
 - psychiatric thought in Chinese medicine, 215

PSYCHOANALYSIS

- current psychoanalytic concept of God, 322
- medico-psychological viewpoints on narco- and hypno-analysis, 453
- pharmacological:*
 - relationship between chemical structure and psychoses with the use of psychotoxic substances, "comparative pharmacopsychiatric analysis," a new research method, 429*

PSYCHOBIOLOGY

- experimental pharmacodynamics and psychobiology, 376*
- historical and philosophic background of psychobiology, 360*
- on problems and perspectives in biologic psychiatry, 345*
- psychobiologic advances and the management of hospitalized patients, 378*
- recent advances in "pharmaco-psychiatry," 381*
- stress and psychobiology, 370*
- what is psychobiology today? 354

PSYCHOENDOCRINOLOGY—See Neuroendocrinology.

PSYCHOPATHS

- psychopathic personality, 95

PSYCHOSES

- brainwashing as a factor in psychiatric illness, 209
- capillary system in patients with psychiatric disorders, 208
- plasma corticoids in psychiatric illness, 263*
- psychosis and stuttering, 313
- relationships between chemical structure and psychoses with the use of psy-

chotoxic substances, "comparative pharmacopsychiatric analysis," a new research method, 429*

artificially induced:

- schizophrenia and the model psychoses, 405*
- Symposium on artificially induced psychoses, 388*–433*

chronic:

- comparison of chlorpromazine and reserpine in chronic psychosis, 325
- controlled study of chlorpromazine therapy in chronic psychotic patients, 81*
- occupational treatment of chronic psychotics, 101

neurasthenic:

- the neurasthenic psychopath, 211

treatment:

- chlorpromazine treatment of hospitalized psychotic patients, 45*
- contributions of psychiatric social work to direct treatment of psychotic patients, 216
- endocrine concomitants of certain physical psychiatric treatments, 254*
- treatment of mental disorders with chlorpromazine, 38*

PSYCHOSOMATIC MEDICINE

- psychosomatic medicine, past, present and future, 100
- relationship of endogenous psychoses to physical illness, 212

PSYCHOTHERAPY

- acceptability for psychotherapy in institutionalized narcotic addicts, 93
- attitude therapy in geriatric ward psychiatry, 98
- how important is psychotherapy to the hospitalized psychiatric patient? 221
- personality needs, religion, and psychotherapy, 326
- psychotherapy and the ministry, 453
- psychotherapy of a mother and daughter with separation anxiety, 103
- psychotherapy techniques for use with psychotics, 102
- religion and psychotherapy, practical aspects, 222
- reserpine, alone and as an adjunct to psychotherapy in the treatment of schizophrenia, 452
- social class and duration of psychotherapy, 103
- special techniques in brief psychotherapy, 326
- value systems in the psychotherapeutic process, 222
- pharmacologic:*
 - studies in pharmacological psychotherapy, 324

RAUWOLFIA SERPENTINA—See Reserpine.

RELIGION

- need to believe, persistent religious behavior in non-believers, 324
- personality needs, religion, and psychotherapy, 326

- psyche and the symbols of religion, 214
- religion and psychotherapy, practical aspects, 222
- towards an operational definition of religion, 213
- RESERPINE**
 - comparison of chlorpromazine and reserpine in chronic psychosis, 325
 - improving senile behavior with reserpine and Ritulin, new approach with the use of methyl phenylpiperidylacetate, 446
 - reserpine, alone and as an adjunct to psychotherapy in the treatment of schizophrenia, 452
 - 17-hydrocorticosteroid levels in the peripheral blood of psychotic patients under treatment with chlorpromazine and reserpine, a preliminary study, 142*
 - in psychiatric hospitals:*
 - clinical research on chlorpromazine and reserpine in state and private psychiatric hospitals, a comparative review of the clinical problems, 180*
- RESPONSIBILITY**
 - concept of responsibility, 312
- RITULIN**—*See Methyl Phenylpiperidylacetate.*
- RORSCHACH TEST**
 - neurologic techniques and Rorschach test in detecting brain pathology, 217
- SCHIZOPHRENIA**
 - adrenocortical function in schizophrenia, 441
 - atypical forms of schizophrenia, 441
 - schizophrenia and the model psychoses, 405*
 - 17-hydrocorticosteroid levels in the peripheral blood of schizophrenic patients, a preliminary study, 276*
 - etiology:*
 - adrenochrome as the cause of schizophrenia, investigation of some deductions from this hypothesis, 94
 - heredity in:*
 - genetic aspects of preadolescent schizophrenia, 318
 - treatment:*
 - reserpine alone and as an adjunct to psychotherapy in the treatment of schizophrenia, 452
 - somato-psychotherapeutic approach in long-term schizophrenic patients, 210
- SCLEROSIS**
 - disseminated*—*See Multiple Sclerosis.*
- SEDATION**
 - sedation threshold, manifest anxiety, and some aspects of ego function, 315
- SEDATIVES**
 - use and abuse of sedative and hypnotic drugs, 451
- SENILITY**—*See Old Age.*
- SEX**
 - psychiatric implications of sex differences in thyroid-histamine interrelationship, a clinical and laboratory study, 297*
- SHOCK TREATMENT**—*See Electroshock.*
- SLEEP**
 - delicta during sleep, 438
 - sleep and sleep disturbances in geriatric psychiatry, 317
- SLEEP TREATMENT**
 - critical study of 150 cases of sleep treatment, 220
- SOCIAL CLASSES**
 - social class and duration of psychotherapy, 103
- SOCIAL WORK**
 - contributions of psychiatric social work to direct treatment of psychotic patients, 216
- SPASTICITY**
 - chlorpromazine and human spasticity, an electromyographic study, 466
- SPINE**
